No. 407. TWIN-THERMOMETER
Tells both indoor and outdoor temperatures. Designed in the smooth, modern manner. Easily mounted indoors, no holes to bore. Choice of two smart and attractive finishes. No. 407-A with dark gray plastic case. No. 407-B with warm ivory plastic case. Height 8¾", width 2½", 4 feet of tubing.
Price Each
Retail \$5.00 List **\$6.00**

No. 404. INDOOR-OUTDOOR THERMOMETER
Tells both indoor and outdoor temperatures
Smartly designed dual-purpose thermometer
Unit mounted indoors, capillary bulb outdoors
Simple to install, no holes to bore
Height 9½", width 2¼". Choice of finishes (See below)
The original twin-tube indoor-outdoor thermometer that has been one of the most consistently popular items in the AIR-GUIDE line for over ten years, the INDOOR-OUTDOOR is unique in function and design. The indoor tube on the left is a conventional fine quality bulb thermometer tube. The outdoor tube on the right is connected to the capsule by a fine flexible tubing which rests on the window sill, the sash closing easily over it, thereby avoiding the necessity for boring any holes.
No. 404-A. Gunmetal gray plastic case with silver toned scale
No. 404-B. Ivory plastic case with gold color scale
Retail List
No. 404-A or 404-B. Price each.....\$7.50 **\$9.00**

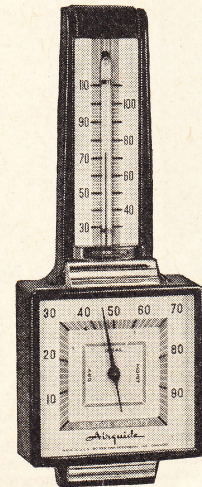

No. 403. OUTDOOR THERMOMETER
Easily adjustable to best readable position
Plated brass mounting bracket
Scale of durable, ivory vitreous enamel
Magnifying tube with non-fading red liquid
Easy-to-see numerals and calibrations
Height 11¼", width 2½"
The PENN is extra large to afford maximum readability.
No. 403. Price Each.....Retail \$3.50 List **\$4.20**

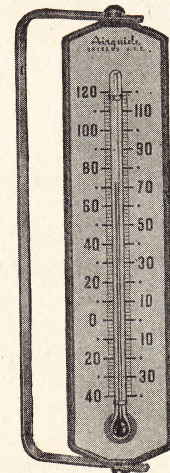

No. 406. OUTDOOR DIAL THERMOMETER
High quality dial type outdoor thermometer at remarkable low price
Beautiful plastic case of warm gray
Sensitive but sturdily built to give years of service
Easy-to-read dial with red indicating hand
Instrument held at desired angle by adjustable bracket
Case 3¾" in diam., bracket 4" long
The AIRGUIDE 406 is especially designed for those who prefer a dial type outdoor thermometer that is considered by many to be most readable. Adjustable bracket holds instrument at position of maximum visibility. Durable gray plastic case protects simple but sensitive mechanism thereby assuring years of dependable service.
