GUARANTEE

WEKSLER INSTRUMENTS are guaranteed to be free from defects in material or workmanship — manufactured from carefully selected glass and filled with the purest mercury obtainable. When used in accordance with our recommendation they are guaranteed to be accurate within one scale division (plus or minus). Our obligation under this guarantee covers the repair or replacement, free of charge except transportation to and from our factory, of any instrument or part thereof which proves defective by our examination, within one year of delivery to original purchaser. Our written consent will be required before returning instrument under this guarantee, and we will not accept responsibility for accidental damage or resulting expense.

TRANSIT LOSS

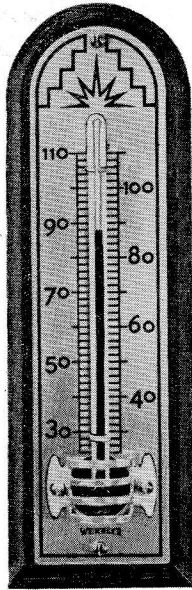

All Weksler Thermometers are insured against transit loss by breakage.

CLAIMS

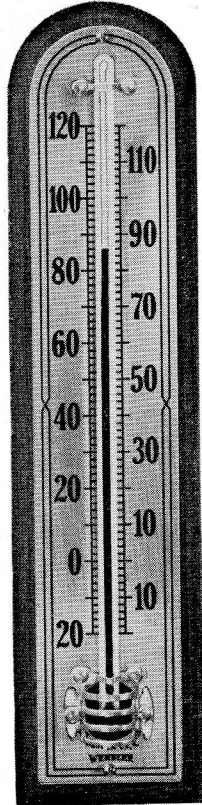

To make this insurance effective, all claims must be filed with the carrier at destination within one week of receipt of merchandise. No claims, regardless of the nature of same, will be accepted beyond this period.

- | | | |
|------------|--|----------------|
| No. 200-1 | Genuine walnut wood back, 4½" long, with beautifully finished rich low brass scale imprinted with dark brown characters. Approximate range 30 to 110° F. Red spirit filled lens magnifying tube | \$15.00 |
| No. 202-1 | Polished mahogany-finished wood back, 7¾" long, with beautifully finished rich low brass scale imprinted with dark brown characters. Approximate range minus 30 to 120° F. Red spirit filled lens magnifying tube | \$19.80 |
| No. 203-FC | Genuine walnut wood back, 8½" long, with specially engraved brass scale with black enamel filled characters. Double scale with range minus 40 to 120° F. and minus 40 to 50° C. Red spirit filled lens magnifying tube | \$33.00 |
| No. 210-1 | Genuine walnut wood back of symmetrical design, 6" long, with gold finished aluminum scale imprinted with maroon characters. Approximate range minus 20 to 120° F. Red spirit filled lens magnifying tube | \$19.80 |

THERMOMETERS FOR MISCELLANEOUS UTILITIES

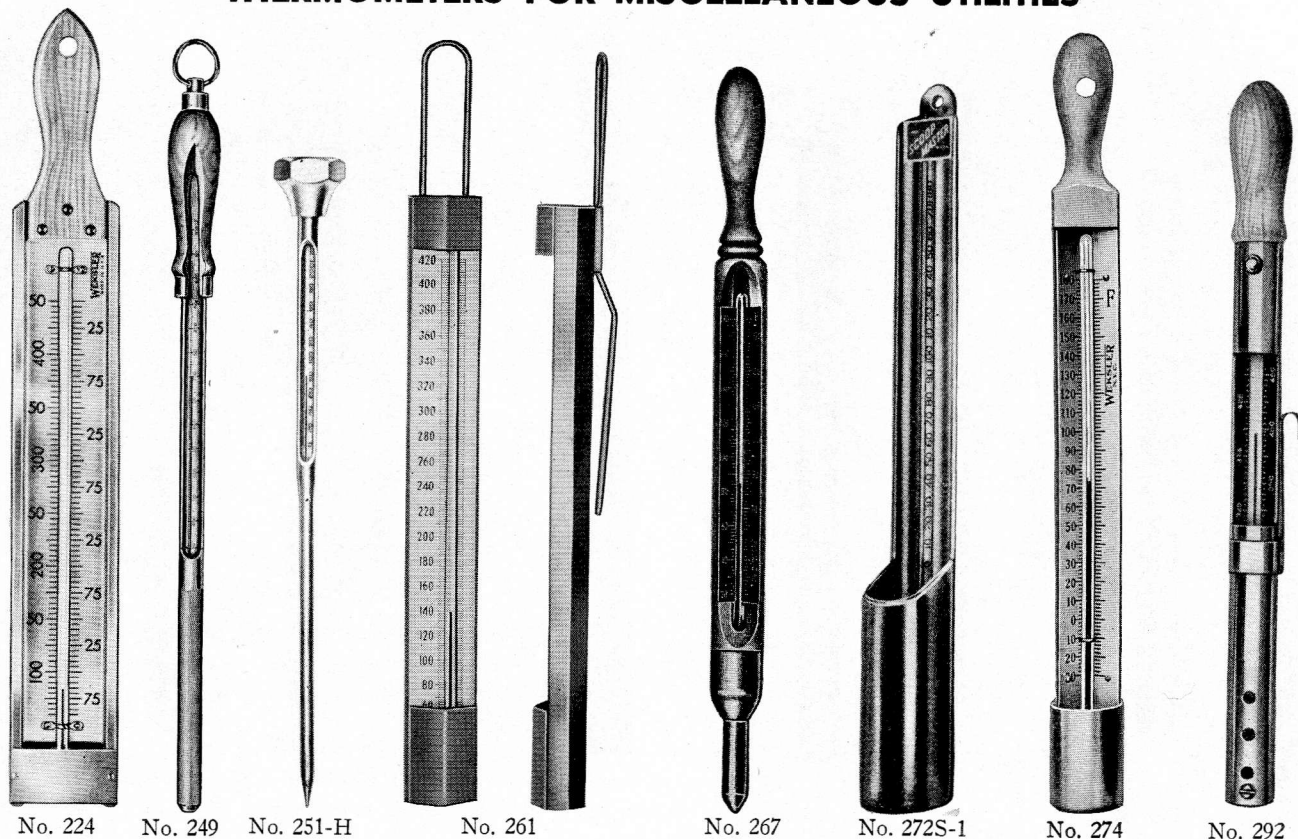

LIST PRICE

- | | | |
|--|---|--------------------|
| 270 | CHILL ROOM THERMOMETER: 12" polished aluminum frame constructed to extend 1½" from wall for free air circulation around bulb. Approximate range, -20 to 120°F. Lens spirit filled tube | \$54.00 dz. |
| 270E | Similar to No. 270 except engraved glass tube on blank metal scale. All standard ranges | 66.00 dz. |
| 271 | SHIPHOLD THERMOMETER: 12" scale mounted on cadmium plated iron case with rubber bumper at bottom and sides. Range -20 to 120°F. Lens spirit filled tube | 54.00 dz. |
| 279S | STAINLESS STEEL CASE THERMOMETER: Shiny, clean, stainless steel case with stainless steel wire loop for hanging. For use in walk-in boxes—for room, barn or factory—indoor or outdoor. On ships for hold, deck or engine room. 8" scale. Lens spirit filled tube | 24.00 dz. |
| 281S | Similar to No. 279S except 10" scale size | 39.00 dz. |
| 283S | Similar to No. 279S except 12" scale size | 48.00 dz. |
| <i>All three above sizes available in approximate range of -30 to 120°F., 10" and 12" size in range of 0 to 240°F.</i> | | |
| 286S-2 | STAINLESS STEEL CUP CASE THERMOMETER: 10" scale mounted in Stainless Steel Case with scoop or cup for holding liquid. Approximate range, -30 to 120°F. Spirit filled lens magnifying tube. Similar to illustration No. 279-S but with closed bottom | 61.80 dz. |
| 287S-6 | Similar to 286S-2 except 12" scale size | 66.00 dz. |
| 289 | CYLINDRICAL COPPER CUP THERMOMETER: Same as No. 290 except 10" long by 1" O.D. Ranges -30 to 120°F. or -20 to 220°F. | 72.00 dz. |
| 290 | CYLINDRICAL COPPER CUP CASE THERMOMETER: 12" long by 1¼" O.D., with closed bottom for retaining liquid. Ranges -30 to 120°F. or -20 to 220°F. Mercury or Red spirit filled lens magnifying tube | 87.00 dz. |
| 326 | MAXIMUM AND MINIMUM THERMOMETER: Sixe's type "U" shape thermometer mounted on metal scale which is attached to a flanged copper case 10¼" x 2⅝" with shelter at top. Indicates maximum and minimum temperatures by means of glass encased steel indices within the thermometer tube. A permanent magnet is supplied with each instrument for resetting the steel indices. Approximate range, -40 to 120°F. | 8.85 ea. |
| 329 | MAXIMUM AND MINIMUM THERMOMETER: Similar to No. 326 except scale and tube are mounted in an 11" black plastic case, with mounting brackets. Degree marks are etched on metal scale and numbered every 10 degrees. Approximate scale on minimum side, -40 to 110°F. and on maximum side, -10 to 130°F. | 10.00 ea. |
| 329E | Similar to No. 329 except degree marks are etched on glass tube to U. S. Navy specifications. | 12.00 ea. |
| 329M | MAGNET only, for maximum and minimum thermometer | 1.00 ea. |

NOTE: All thermometers normally stocked with lens red spirit filled tubes can be furnished on minimum orders of one dozen pieces, with lens mercury filled tubes, at an additional price of \$.50 each list.

THERMOMETERS FOR MISCELLANEOUS UTILITIES

LIST PRICE EACH

224	DEEP FRYING THERMOMETER: 16 in. overall, with flanged stainless steel scale and wood handle. Locking spring-wire clip on back is adjustable to depth of kettle. Approximate range 60 to 450° F, mercury filled lens magnifying tube	\$ 5.75
249	MOLTEN METAL AND LINOTYPE THERMOMETER: 16½" steel case with wood handle for holding. Approx. range 450 to 950°F., lens magnifying engraved tube.	30.00
251-H	SOIL TESTING THERMOMETER: 11 in. Skewer type stainless steel case with brass knob. Approximate range 0 to 220° F, mercury filled lens magnifying tube	9.25
260	CONFECTIONERY: 12 in. Stainless Steel case with clip at back for attaching to kettle. Approximate range 60 to 400°F., mercury filled lens magnifying tube.	4.50
261	CONFECTIONERY: 14 in. Same as above except for length	5.50
262	CONFECTIONERY: 16 in. Same as above except for length	6.50
267	SOIL THERMOMETER: 16 in. hardwood frame, oxidized brass scale, mercury filled lens magnifying tube. Approximate range 20 to 180° F	6.00
272S-1	SCOOPMASTER TANK THERMOMETER: 14 in. chemical resistant plastic case with 120 ml capacity cup, to A.P.I. and A.S.T.M. requirements. Range—30 to 120° F. lens magnifying red reading mercury engraved tube	7.50
272S-2	SCOOPMASTER TANK THERMOMETER: Same as above, but range 0 to 180° F	7.50
272S-H	SCOOPMASTER TANK THERMOMETER: Same as above but heat resistant case, range 170 to 500° F	9.00
272S-R	Refill, engraved tube only, for SCOOPMASTER, Ranges -30 to 120°F; 0 to 180°F; or 20 to 220° F	3.00
272S-HR	Refill, engraved tube only, for SCOOPMASTER, Range 170 to 500°F.	4.00
273	TANK CAR THERMOMETER: 10 in. "V" shape wood case with brass cup and metal scale. Approx. range -10 to 120°F. or -20 to 220°F., red spirit lens magnifying tube	2.75
274	TANK CAR THERMOMETER: 12 in. Same as above except for length	3.50
292	WAX THERMOMETER: Manufactured to Western Electric Company's specifications for cable splicers. 11½ in. overall, nickel plated brass case with wood handle, spring brass side hook. Oxidized brass scale, mercury filled lens magnifying tube. Approx. range 325 to 450°F.	10.50

INCUBATOR THERMOMETERS AND HYGROMETERS

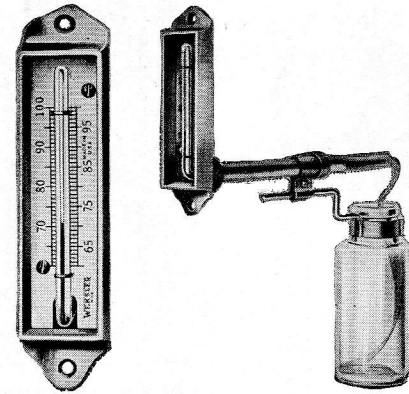

No. 294-10

MAMMOTH INCUBATOR THERMOMETER

A sturdily constructed thermometer designed for large sized incubators. The instrument is mounted on the outside of the incubator, and the angle thermometer tube, protected by metal tubing, extends 8 to 16 inches inside of the incubator. The frame is a polished die-casting and holds a 4 x 1 inch silvered scale with black filled numerals and graduations. Approximate range 90 to 110°F.

No. 294-10 10" Stem...List Price **\$ 7.00 each**
 No. 294-16 16" Stem...List Price **10.00 each**

No. 295

MAMMOTH INCUBATOR HYGROMETER

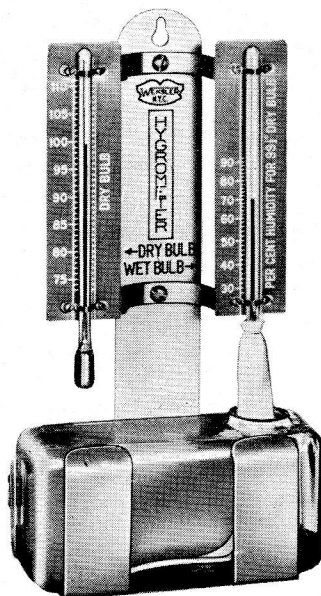

Control of the humidity in incubators is equally as important as the temperature. The Mammoth Hygrometer is similar in construction to the Mammoth Thermometer except that it is provided with a cistern and holder. The scale is graduated for wet bulb readings and has an approximate range of 60 to 100° F.

No. 295 8" StemList Price **\$9.50 each**

WEKSLER INCUBATOR HYGROMETER

This instrument is designed for mounting inside of the incubator unit. The hygrometer is equipped with both wet and dry bulb tubes mounted on engraved scales which are in turn attached to an attractively finished metal back 4¾ x 8¾ inches and provided with a cistern. The wet bulb scale gives the humidity in percent at 99½° F.

No. 299
 List Price **\$10.00 each**

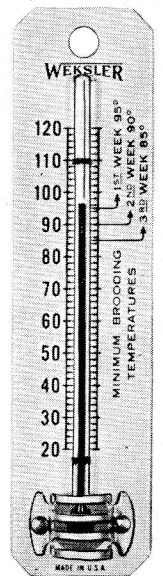

No. 299

BROODER THERMOMETER

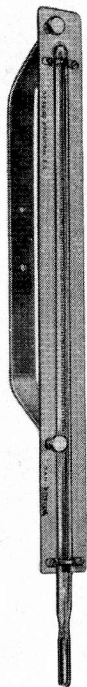

White frosted aluminum scale with black divisions and numerals. Size 4½"x1⅛" with side flanges for strength. Range 20 to 120° F. in 2° divisions with minimum brooding temperatures indicated on scale. Lens magnifying red spirit filled tube.

No. 306
 List Price **\$8.40 per dozen**

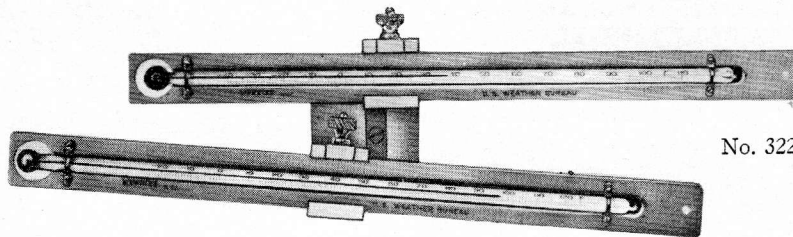

No. 306

WEATHER BUREAU THERMOMETERS

- No. 325 Exposed Mercurial Thermometer. A 10½" well seasoned glass tube, range approximately minus 38 to 130° F is mounted on a 9½" stainless steel back, the lower end protruding 1⅝" to insure free air circulation around bulb. This thermometer is used by meteorological services to accurately indicate free air temperatures. List Price **\$7.50**
- No. 325A Brass support designed to hold the thermometer one inch from the mounting surface. List Price **\$1.50**
- No. 325R Replacement glass tube only for Exposed Mercurial Thermometer. List Price **\$4.00**

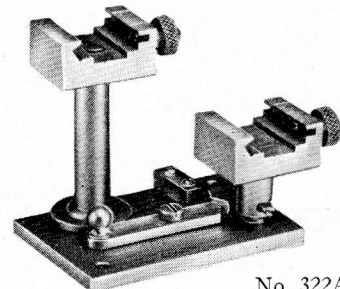

Maximum and Minimum Thermometers are used for determining extremes of temperature over any desired period. All meteorological and climatological stations use these instruments to obtain basic climatic data. A record of maximum and minimum temperatures is also essential in many phases of agriculture.

No. 322

No. 325, with support

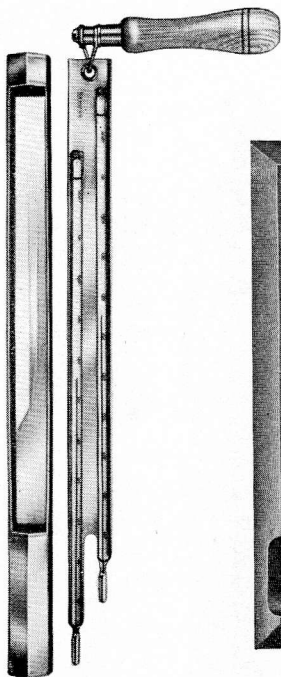

- No. 322 Set of maximum and minimum thermometers, Weather Bureau pattern, mounted on an all metal Townsend Support, which clamps both thermometers in proper position for operation. Each thermometer may be easily reset without demounting. The higher supporting leg provides clearance for the maximum thermometer and permits whirling for resetting, without danger of breakage. List Price **\$35.00**

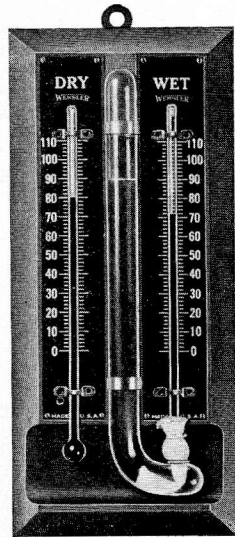

No. 322A

- No. 323 Maximum Thermometer. A 10½" high quality mercury filled tube, range approximately minus 38 to 130° F is mounted on a 12" stainless steel back. A constriction is formed in the capillary just above the bulb to permit maximum registering. When the temperature rises the mercury is forced past the constriction for proper registration. With a decrease in temperature the receding mercury breaks at the point of restriction leaving the mercury column at the highest reading. To reset, the thermometer is whirled, causing the mercury to recede past the constriction until reunited. List Price **\$10.00**
- No. 323R Replacement glass tube only for Maximum Thermometer. List Price **\$ 7.00**
- No. 324 Minimum Thermometer. A 10½" alcohol filled tube, range approximately minus 50 to 120° F is mounted on a stainless steel back. A specially shaped floating index is inserted in the thermometer bore and is kept within the alcohol column by surface tension of the meniscus. When the temperature drops, the index is drawn towards the bulb, but remains at the lowest point when the alcohol column starts to rise. Resetting is accomplished by tipping the bulb upward until gravity causes the index to slide down the bore as far as the surface meniscus of the alcohol. List Price **\$10.00**
- No. 324R Replacement glass tube only for Minimum Thermometer. List Price **\$ 7.00**
- No. 322A. Townsend Support. Clamps maximum and minimum thermometers in correct position and facilitates resetting. List Price **\$17.50**

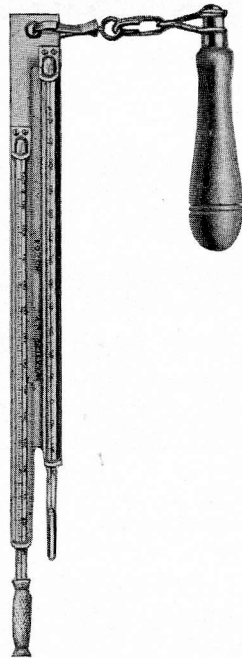

PSYCHROMETERS AND HYGROMETERS

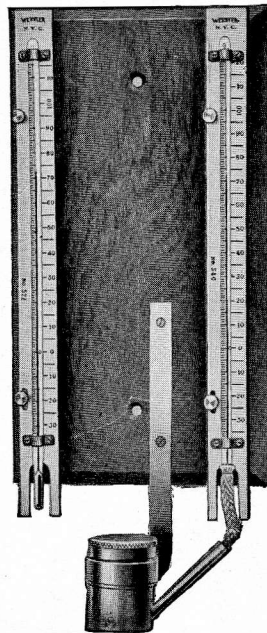

No. 311 & No. 311-2

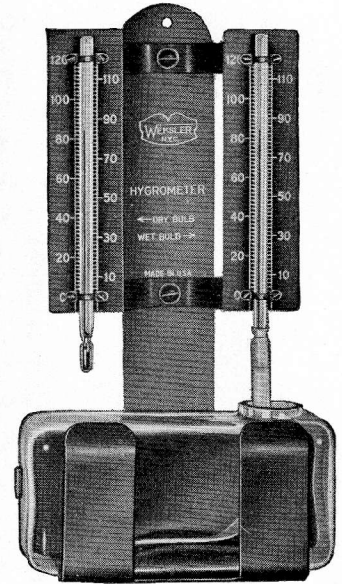

No. 314

No. 315

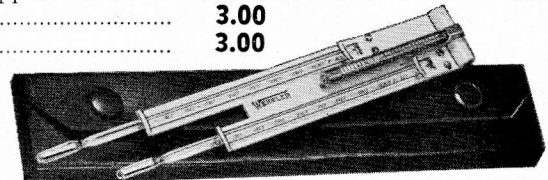

No. 319

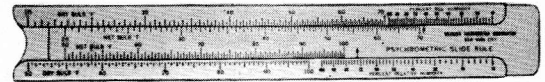

No. 320

- 311 SLING PSYCHROMETER, 12" SIZE: Two 12" etched stem mercurial thermometers attached to a stainless steel back, with wood handle and swivel for swinging. Approx. scale range minus 20 to 120° F. List Price **\$15.00**
- 311-1 Extra Thermometer for No. 311. List Price **5.00**
- 311-2 Carrying case for No. 311 Psychrometer. List Price **5.00**
- 314 HYGROMETER, MASON TYPE: Wet and dry bulb thermometers of lens spirit magnifying tubing are mounted on a black finished metal scale with white filled numerals and graduations. The scale with tubes, wick and cistern is assembled on a varnished mahogany finished back 9 x 4 in. Range 20 to 120°F. standard; range 0 to 130°F. supplied on request. List Price **5.50**
- 314-H Same as above, except scale range 20 to 220° F. Silvered metal scale. List Price **6.00**
- 314-C GLASS CISTERN ONLY: For No. 314 Mason Type Hygrometer. List Price **1.50**
- 315 SLING PSYCHROMETER WEATHER BUREAU TYPE: Two 9½" etched mercurial thermometers attached to stainless back with swivel handle. Approx. scale -20 to 120°F. List Price **10.00**
- 315-1 Extra Thermometer for No. 315. List Price **3.00**
- 315-2 Carrying case for No. 315 Psychrometer. List Price **3.00**
- 317 SLING PSYCHROMETER WEKSLER POCKET TYPE: Two 5" etched mercurial lens magnifying thermometers attached to aluminum back with metal handle for swinging. Supplied with leatherette case for field use. Approx. scale range 20 to 110°F. in 1° divisions. List Price **9.50**
- 317-1 Extra Thermometer for No. 317. List Price **2.40**
- 317-W Extra Wicks for Psychrometers, pkg. of 12. List **.60**
- 318 Psychrometric Slide Rule. List Price **2.00**
- 318-C 10" x 12" Plasticised Psychrometer Chart. List **1.00**
- 319 PSYCHROMETER, U. S. NAVY PATTERN: Two etched stem mercury filled thermometers are individually mounted on engraved angle scales, which are mounted on a polished wood back 11 x 6 in. by means of brackets. A nickel plated cistern with spout is also attached to wood back so that spout comes directly under one of the thermometers for connecting with wick. Scale range minus 20 to 120°F. List Price **15.00**
- 319-1 Extra scale and tube for above item. List Price **5.00**
- 319-2 SHELTER HOUSING, for 319 Psychrometer, louvered, with lock and key. List Price **28.00**
- 320 HYGROMETER, WEKSLER TYPE: Two lens yellow mercury filled tubes mounted on etched scales, with white numerals and graduations, bracket mounted on an attractively finished metal back 9½ x 5¼". Fitted with large glass cistern. Scale range 0 to 120°F. List Price **10.00**
- 320-C GLASS WATER CISTERN only. List Price **1.50**
